Tyco® EG-25 Sprinkler Guard from Johnson Controls is first listed guard to meet FM Global design guidelines

MILWAUKEE – (Feb. 13, 2018) – [Johnson Controls](http://www.johnsoncontrols.com) announces that its Tyco® EG-25 Sprinkler Guard is the first FM-approved guard on the market to meet FM Global design guidelines and National Fire Protection Association (NFPA) requirements for using a listed guard in areas where sprinklers are exposed to potential damage.

The new sprinkler guard is designed for use with TYCO ESFR-25 pendent sprinklers. These sprinklers provide suppression load performance with ceiling-only fire protection for a wide variety of commodities and storage arrangements, enabling building owners to lease to the widest range of occupiers. When used in in-rack applications, such as the FM Global design guidelines, the ESFR-25 can be combined with the EG-25 guard to help protect the sprinkler from damage that is common to in-rack sprinklers.

The guard's welded assembly is fabricated from carbon steel, providing protection from mechanical and/or physical damage, including the installation of rack storage sprinklers. The guard does not require any regularly scheduled maintenance; however, proper installation of the EG-25 should be verified during the annual visual inspection of the sprinkler.

To learn more about the EG-25 Sprinkler Guard and Tyco fire sprinkler solutions visit <http://www.tyco-fire.com/>. For questions or support, contact Tyco technical services at 1-800-381-9312.

About Johnson Controls

Johnson Controls is a global diversified technology and multi-industrial leader serving a wide range of customers in more than 150 countries. Our 120,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat. We are committed to helping our customers win and creating greater value for all of our stakeholders through strategic focus on our buildings and energy growth platforms. For additional information, visit www.johnsoncontrols.com or follow us @johnsoncontrols on Twitter.

About Johnson Controls Building Technologies & Solutions

Johnson Controls Building Technologies & Solutions is making the world safer, smarter and more sustainable – one building at a time. Our technology portfolio integrates every aspect of a building – whether security systems, energy management, fire protection or HVACR – to ensure that we exceed customer expectations at all times. We operate in more than 150 countries through our unmatched network of branches and distribution channels, helping building owners, operators, engineers and contractors enhance the full lifecycle of any facility. Our arsenal of brands includes some of the most trusted names in the industry, such as Tyco[®], YORK[®], Metasys[®], Ruskin[®], Titus[®], Frick[®], PENN[®], Sabroe[®], Simplex[®] and Grinnell[®].
