New Tyco® ESFR-22 sprinklers from Johnson Controls added to the Tyco family of storage sprinklers

MILWAUKEE – (July 2, 2018) – [Johnson Controls](https://www.johnsoncontrols.com) announces its new Tyco® Early Suppression Fast Response (ESFR)-22 pendent sprinklers has joined the Tyco line of storage sprinklers.

The ESFR-22 can be installed in storage facilities with a ceiling height up to 45 feet and a storage arrangement up to 40 feet without requiring in-rack sprinklers. The system can also be installed with a maximum deflector-to-ceiling distance of 18 inches, resulting in a reduction of product and installation costs, as well as increased storage space due to higher roof/rack heights. Facility owners gain additional flexibility with stock configurations and eliminate costly in-rack sprinkler service, repair and maintenance.

Model ESFR-22 sprinklers are primarily used for ceiling-only sprinkler protection of, but not limited to, the following storage applications:

- Most encapsulated or non-encapsulated common materials, including cartoned, unexpanded plastics
- Uncartoned (exposed) expanded plastics
- Some storage arrangements of rubber tires, roll paper, flammable liquids and aerosols

The ESFR-22 meets National Fire Protection Association (NFPA) and FM Global (FM Approvals) installation standards that must be used to properly design an automatic sprinkler system utilizing ESFR Sprinklers.

The ESFR-22 joins the broad line of Tyco storage solutions. For more information, visit <http://www.tyco-fire.com>. For questions or support, contact technical services at 1-800-381-9312.

About Johnson Controls

Johnson Controls is a global diversified technology and multi-industrial leader serving a wide range of customers in more than 150 countries. Our 120,000 employees create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities. Our commitment to sustainability dates back to our roots in 1885, with the invention of the first electric room thermostat. We are committed to helping our customers win and creating greater value for all of our stakeholders through strategic focus on our buildings and energy growth platforms. For additional information, please visit <http://www.johnsoncontrols.com> or follow us @johnsoncontrols on Twitter.

About Johnson Controls Building Technologies & Solutions

Johnson Controls Building Technologies & Solutions is making the world safer, smarter and more sustainable – one building at a time. Our technology portfolio integrates every aspect of a building – whether security systems, energy management, fire protection or HVACR – to ensure that we exceed customer expectations at all times. We operate in more than 150 countries through our unmatched network of branches and distribution channels, helping building owners, operators, engineers and contractors enhance the full lifecycle of any facility. Our arsenal of brands includes some of the most trusted names in the industry, such as Tyco[®], YORK[®], Metasys[®], Ruskin[®], Titus[®], Frick[®], PENN[®], Sabroe[®], Simplex[®] and Grinnell[®].
